

Qualified Product Listing- MIL-PRF-83446

To All Pertinent Parties,

American Precisions Industries Inc.– Delevan, also known as API Delevan, CAGE Code 99800, is an established manufacturer of electronic components in both military and space applications. As a trusted supplier, API Delevan, has acquired Qualified Product Listing (QPL) approval by the Defense Logistics Agency (DLA) for a multitude of products, as shown below. The products listed in this document are registered under the DLA controlled specification pertaining to MIL-PRF-83446: “Performance Specification Coils, Radio-Frequency, Chip, Fixed or Variable, General Specification”.

Per MIL-PRF-83446D w/Amendment 1, Section 4.4.4 “Retention of Qualification”; API Delevan has and will submit a report every 36 months to the DLA for approval and retention of QPL status. August of 2020 was API Delevan’s last retention submittal period. API Delevan’s next required retention submission will occur August of 2023. All pertinent data and information required are kept on file and past DLA accepted reports are available upon request.

As a United States’ government-maintained program, API Delevan’s status as an active supplier can be validated per the Defense Logistics Agency website (www.dla.mil). Furthermore, as per the requirements of MIL-PRF-83446 specification, all products within the specification scope will be tested accordingly to Section 4.5 “Conformance Inspection” prior to production shipments.
